TL 01.1.1 FIM Europe Standards for Organisers

It is the responsibility of the FMNR to ensure that the starting area, the riders' paddock, the sections, the course, and the other installations fulfil the demands stated in the [Compulsory Standards for Organisers](#).

Each FMNR shall appoint a person to ensure that all Standards for Organisers and requirements of the Environment Code are respected throughout the event and also ensure that the Organiser is fully conversant with these Rules.

The Jury President will inform the FIM Europe of any violation of the FIM Europe compulsory standards for organisers; the FIM Europe may then impose a sanction on the FMNR.

TL 01.1.2 Meeting with the Organisers

Two days before the competition, a meeting will take place between the organisers and the Jury President. This meeting must include the following persons:

- the Jury President
- the Clerk of the Course
- the Secretary of the event
- the person appointed by the FMNR as detailed in TL 01.1.1
- the person responsible for the Sections.

Other persons who the Jury President or the Organiser feels appropriate may attend.

TL 01.2 JURISDICTION

An International Jury composed of a Jury President appointed by the FIM Europe, a Jury Member appointed by the FMNR will supervise the event. A third jury member may be appointed from amongst the licensed delegates or a present member of the FIM Europe Trial Commission. If no other person with a sporting steward license is present at the event, the Jury President will have a casting vote in the case of a tie (FIM Europe Sporting Code art 50.1).

A Jury Member cannot take part as an Assistant (FIM Europe Sporting Code art 40.3).

Any FMN with a rider competing in the event may send a delegate with a sporting steward license to attend all open meetings of the Jury. The Jury Delegate can report any observations to the Clerk of the Course or at the open Jury meetings. The Jury Delegate has no jurisdiction and must not discuss any concerns directly with observers or other officials.

TL 01.3 COURSE

The route should be in one direction only. If, in exceptional circumstances, two-way traffic is unavoidable, then special safety measures must be taken, e.g. separating the

track or positioning of officials.

It must be possible for the riders to complete the course (from the paddock to all sections and back) without the use of public roads (unless closed for general traffic with permission from the authorities and guarded by police or officials).

To be classified as a finisher the rider alone shall ride or push the machine for the entire distance of the Course, unless the organisers have authorised other assistance or authorised deviation.

TL 01.3.1 Distance

The length of the course for each lap shall not exceed 20 km. The Trial shall consist of 2 laps.

TL 01.3.2 Course marking

The course shall be marked with direction arrows as shown below:

Within the square marked ? shall be written the number of the section to which the arrow directs the riders. All arrows must be made of waterproof material.

During the event the marked route must be strictly followed. A rider who leaves the route must, under penalty of disqualification, regain the course at the point where it was left.

The course shall be completely marked the day before the event and the riders will be allowed to follow it by motorcycle under their own responsibility during the scheduled inspection of the sections (see TL 01.7.1).

For safety reasons, there must, wherever possible, be a route marked for spectators, different to that marked for the riders. If spectators riding motorcycles are allowed to follow the course, this must be mentioned in the Supplementary Regulations, and necessary safety measures must be taken to avoid conflicts between competitors and spectators riding motorcycles.

TL 01.4 SECTIONS

The number of sections for all categories will be 12 per lap. Each day of competition will consist of 24 sections in total unless the Jury President decides otherwise.

Different lines within the sections, shall be provided as appropriate for riders of the Championship, the Junior Cup, the Over 40 Cup the Women Championship and the Youth Championship (see 01.4.2).

For each class the sections must be designed so that at least 1/3 are of an easy, medium and difficult level. Each section shall be completely independent of other sections.

Sections constructed predominantly with industrially processed elements or materials should be avoided and can eventually be abandoned by the jury.

Each section must be clearly numbered in consecutive order, and the rider must, under penalty of 10 points, attempt the sections in numerical order.

Each section shall have signs clearly identifying the location of both the "Section Begins" and "Section Ends". The Sections must be numbered at the time of the Rider's inspection.

A machine is considered as being in a section when the front wheel spindle has passed the "section begins" sign and until the time when the front wheel spindle passes the "section ends" sign.

Where it is found necessary to abandon any section owing to "force majeure" before all riders have passed through, no penalties shall be incurred in this section by any rider. **If this occurs on the second lap, the scores from the first lap still remains.** If there are riders in the queue for this section, then the queue should be formed in the same order at the next section. The total time for the event shall not be modified in the event of any section being abandoned during the Trial.

If any section proves during the first lap to be impossible for all riders (all 5 points) that section shall not be modified for the next lap but may be abandoned at the conclusion of the lap. The penalties incurred by any rider in the section shall be included in that rider's total penalty points for the event.

Different lines within the sections shall be provided as appropriate for riders of the different classes.

TL 01.4.1 Section Corridor

A corridor shall be provided at the entrance to each section and it shall be controlled by a responsible Official.

This corridor shall allow at least two riders to sit in a queue with their machines when they are ready and prepared to attempt the section.

The rider will be penalised by failure (5 points, see [TL 01.10.2.2](#) p 14) for contravention of the following:

- a. Leaving the machine in this corridor.
- b. The Assistant entering the corridor.
- c. Receiving any outside assistance to the machine in this corridor

TL 01.4.2 Section Boundaries

The sections shall be bounded by natural obstacles and strong, easily visible waterproof tape, securely fastened to stakes or trees.

The stakes must be securely fixed to the ground and be spaced close enough to each other to prevent major movement of the tapes. The tape must be at a minimum height of 10 cm above the ground and below a maximum height 30 cm. The actual width of the section defined between the tapes shall be at least 200 cm.

When a tape is used as an external limit of a section or as an internal separation within a section, then the following shall apply. Breaking the tape or passing over a tape so that a wheel touches the ground on the opposite side shall be considered as a failure.

The actual width of the section may be reduced using "gates" indicated by markers, as shown below, with the minimum width between these markers being 120 cm.

Riders must travel only between the “gates” for their Class. A rider who passes between the “gates” of another Class - in whatever direction irrespective of if used that day - will be classed as a failure i.e. 5 points.

If any tape or any marker or stake is broken or moved then it must be replaced before the passage of the next rider. The Clerk of the Course must ensure that there is an adequate reserve supply of tape and markers available at each section.

To travel from the lap time control to the finish point each rider may be allocated a set period of time. This time allowance will be set by the Jury and displayed on a notice board at the lap time control. Any rider who exceeds this allowance shall be liable to a fine penalty of Euro 50.- + 5 points.

TL 01.5.6 Section Time Allowance

The time will start when the rider passes the Section Begins line. The time will be measured by an official who will use a whistle to signal the start of the time allowance. If the rider has not completed the section on the completion of the one and a half minutes time allowance, then the official shall give a long blast on the whistle to signal failure.
